Jialong Ouyang

Senior Game Designer application | Project R.I.S.E

Shanghai, China | 15801802986 | 125047283@qq.com

DESIGN PROFILE

10+ years in mobile game design and product development, spanning combat, levels, systems and live iteration. Former Senior Combat Designer and System/Level Designer, with experience defining boss encounters, character skills and combat AI behavior. Currently Senior Product Manager at Scopely's DIGIT studio.

SELECTED PROFESSIONAL WORK | COMBAT AND LEVELS

Shanghai Fengtu | Senior Combat Designer

Nov 2018 - Mar 2020 | Dou Jiang (MMO / card strategy)

- Defined dungeon encounter goals; designed and configured boss skills, character skills and corresponding art requirements.
- Iterated skills using live PvP and PvE data; designed cross-server PvP and fair-competition modes with engineering and art.

Shanghai UT GAME | System / Level Designer

Jul 2015 - Oct 2018 | Mobile MMO, ARPG, card and strategy projects

- Designed boss encounters, monster and boss AI behavior, character skills and level requirements with engineering, art and balance designers.
- Brave Adventure 2: learned ERA during a three-month assignment at Perfect World headquarters and contributed level design and demo production.
- Luna Chronicles: designed and configured monsters and bosses, level gameplay and equipment progression.

PERSONAL WORK | THREE UNREAL ENCOUNTER STUDIES

Playable design portfolio for this application | 2026

- **Breach Guardian:** three breakable pillars turn charge interception into limited stun and vulnerability windows, testing telegraph reading, positioning and attack timing.
- **Furnace Overseer:** a marked-player blast clears otherwise invulnerable workers and can hurt allies; missed tasks trigger arena-wide heat, testing task execution and team-cost decisions.
- **Plague Lord:** random elevated safe zones and a cleansing core create movement and target priorities; three melee builds compare burst, control and protection.
- **Iteration:** improved skill feedback and rejection messages; added per-role event logs and neutral post-run questions before revealing detailed facts.

Authorship and engine scope: my first Unreal project. I own the design goals, mechanics and iteration decisions, with AI-assisted Blueprint implementation and checks; GAS and Behavior Trees are foundational learning. Third-encounter skills use standard Blueprints.

Solo first encounter; 1 human + 2 AI in the other two. Local prototype; external player testing pending. Design rationale and evidence: accompanying portfolio index.html.

Jialong Ouyang

Professional experience and education

CAREER HISTORY

Scopely / DIGIT | Senior Product Manager

May 2024 - Present | Star Trek Fleet Command (STFC)

- Design and configure Haven base-economy rules: resource production, building purchases and upgrades, quest rewards and shops; iterate economic balance using review feedback.
- Define staged access and onboarding UI rules, including hidden, locked and unlocked states and prompts; coordinate implementation and acceptance with engineering and QA.

Hero Games / IGAME Studio | Senior System Designer

Jul 2022 - Apr 2024 | Inariel Legend: Dragon Hunt

- Designed core gameplay, progression, cross-server PvP and commercial-event systems; followed development and live-test tuning.
- Improved design documentation and configuration standards; proposed system and balance changes to improve the experience.

Yoozoo Games | Executive Lead Designer

Aug 2020 - Jul 2022 | Junior Three Kingdoms

- Designed major-version gameplay, progression and GVG systems and their balance; planned releases around engagement and revenue goals.
- Led system and balance reviews, followed implementation and acceptance, coordinated overseas versions and Japan-specific development, and planned onboarding for new designers.

Shanghai Qin Game | Senior System Designer

Mar 2020 - Aug 2020 | Miracle Guardian

- Planned monthly updates and coordinated engineering and art; used live data and competitive research to refine PvP matching, progression and launch events.

Shanghai Fengtu | Senior Combat Designer

Nov 2018 - Mar 2020 | Dou Jiang (MMO / card strategy)

- Combat and encounter work detailed on page 1; also followed overseas-version development.

Shanghai UT GAME | System / Level Designer

Jul 2015 - Oct 2018 | Mobile MMO, ARPG, card and strategy projects

- Combat and level work detailed on page 1. Additional system-design work includes Stone Age Mobile and Chijiwushuang.

Shanghai Kingnet | Operations Assistant

Jan 2015 - Jul 2015 | XY Apple Assistant

- Supported certificate processes and daily operations.

EDUCATION AND TOOLS

Shanghai Institute of Technology | Bachelor's degree, Engineering Automation

Sep 2010 - Jun 2014

Tools: Excel, Word, Axure RP, Visio; Unity and ERA project experience. UT GAME Outstanding Employee Award, 2017.

欧阳嘉隆

应聘 Senior Game Designer | Project R.I.S.E

上海 | 15801802986 | 125047283@qq.com

职业概述

10年以上手游策划与产品经验，涵盖战斗、关卡、系统及线上迭代。曾任高级战斗策划、系统/关卡策划，负责过Boss战、角色技能与怪物战斗AI设计。现任Scopely旗下DIGIT工作室Senior Product Manager。

精选工作经历 | 战斗与关卡

上海峰途 | 高级战斗策划

2018.11 - 2020.03 | 斗将（策略MMO卡牌）

- 设计副本验证目标、Boss及角色技能，完成配置并提出对应美术需求。
- 依据线上PVP、PVE数据迭代技能；设计跨服PVP、公平竞技模式，与程序、美术协作落地。

上海游唐 | 系统 / 关卡策划

2015.07 - 2018.10 | MMO、ARPG、卡牌及策略项目

- 设计Boss战、怪物及Boss战斗AI、角色技能与关卡需求，协同程序、美术和数值落实体验。
- 《勇者大冒险2》：赴完美世界总部学习ERA引擎三个月，参与关卡设计与Demo制作。
- 《露娜战纪》：负责怪物与Boss设计配置、关卡玩法和装备养成。

个人作品 | Unreal三关战斗原型

面向本次申请的可运行设计作品 | 2026年

- **破城守卫：**三根可破坏柱子将冲锋拦截转化为有限的眩晕与易伤窗口，验证预警判断、站位和攻击时机。
- **熔炉监工：**点名爆炸清理普通攻击无效的炉工，也可能误伤队友；未处理会触发全场地热，验证任务执行与全队代价判断。
- **疫沼领主：**随机升起的安全平台与净化核心形成转移和目标选择；三种近战构筑比较爆发、控制与防护作用。
- **迭代：**完善技能反馈与拒绝提示，加入分角色事件记录；结算先收集中性自述，再展示详细事实。

分工与引擎经验：这是我的首个Unreal项目；本人确定设计目标、机制和迭代取舍，AI辅助Blueprint实现与检查。GAS与Behavior Trees处于基础学习阶段，第三关技能使用普通蓝图。

第一关为单人，第二、三关为1真人+2AI；本地原型，外部玩家试玩待开展。设计说明与证据请打开随附作品集index.html。

欧阳嘉隆

工作经历与教育背景

完整任职经历

Scopely旗下DIGIT工作室 | Senior Product Manager

2024.05 - 至今 | Star Trek Fleet Command（STFC）

- 负责Haven基地经济规则与配置，包括资源产出、建筑购买与升级消耗、任务奖励及商店规则，结合评审反馈迭代经济平衡。
- 定义前期体验中入口隐藏、锁定、解锁及提示规则，与研发和QA协作推进实现与验收。

上海英雄互娱 / IGAME工作室 | 资深系统策划

2022.07 - 2024.04 | 猎龙联盟

- 负责核心玩法、养成、跨服PVP及商业化活动系统设计，跟进开发与线上测试调优。
- 优化策划文档与配置规范，提出系统和数值体验调整方案。

游族网络 | 执行主策划

2020.08 - 2022.07 | 少年三国志

- 负责大版本玩法、养成、GVG系统及对应数值方案，围绕活跃与流水目标规划版本。
- 主持系统与数值评审，跟进开发及验收；统筹海外版本、日本定制开发与新人培养计划。

上海沁游 | 资深系统策划

2020.03 - 2020.08 | 百万骑士团

- 制定月度版本计划并协调程序、美术；结合线上数据与竞品研究，优化PVP匹配、纵向养成及开服活动。

上海峰途 | 高级战斗策划

2018.11 - 2020.03 | 斗将（策略MMO卡牌）

- 战斗与关卡职责见中文第1页；另跟进海外版本开发与对接。

上海游唐 | 系统 / 关卡策划

2015.07 - 2018.10 | MMO、ARPG、卡牌及策略项目

- 战斗与关卡职责见中文第1页；另参与《石器时代手游》《炽姬无双》的系统设计。

上海恺英 | 运营助理

2015.01 - 2015.07 | XY苹果助手

- 负责证书流程与日常运营支持。

教育背景与工具

上海应用技术大学 | 工程自动化 | 全日制本科

2010.09 - 2014.06

工具：Excel、Word、Axure RP、Visio；Unity与ERA项目实践。2017年上海游唐优秀员工。
